GitHub: github.com/Vanshajsrivastava | Portfolio: vanshajsrivastava.vercel.app | UK

Professional Summary

Cloud Platform and Cloud Support Engineer with hands-on experience deploying, supporting, and troubleshooting AWS infrastructure and Kubernetes workloads using Terraform and CI/CD automation, with proven ability to provision secure cloud environments, manage containerized applications on Amazon EKS, implement monitoring using CloudWatch metrics and logs, and automate infrastructure using Infrastructure as Code; strong knowledge of AWS networking, IAM security, system monitoring, and production troubleshooting, supported by an MSc in Cloud Computing with focus on scalable and reliable cloud platforms.

Experience

DevOps Engineer Intern | Appinventiv | Remote, Uk
Sept 2025 – Present

- Executed end-to-end DevOps tasks independently across sandbox and pre-production environments.
- Engineered and maintained 10+ CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 35%.
- Configured AWS services (EC2, VPC, IAM, Auto Scaling), improving environment stability and security compliance.
- Provisioned and operated 15+ containerized microservices on Amazon EKS, enabling auto-scaling (HPA).
- Established monitoring and alerting with CloudWatch, Grafana, and Loki, cutting incident response time by 30%.
- Automated infrastructure provisioning using Terraform and CloudFormation, improving deployment consistency 45%.
- Orchestrated GitOps workflows using ArgoCD, enabling automated, auditable zero-downtime Kubernetes deployments.

Technical/Core Skills

DevOps & CI/CD: Kubernetes, Docker, Jenkins, GitHub Actions, Terraform, AWS CloudFormation, GitOps (ArgoCD)
Cloud Platforms: AWS (EC2, EKS, ECR, RDS, S3, DynamoDB, IAM, SNS, VPC, CodePipeline, CodeBuild, Auto Scaling), Microsoft Azure
Scripting & Automation: Bash, Shell Scripting, Python
Monitoring & Security: CloudWatch, Grafana, Loki, AWS Secrets Manager, GuardDuty, WAF, CloudTrail, IAM
Databases: PostgreSQL, MySQL, MongoDB, DynamoDB
Networking & Cloud Infrastructure: VPC, Security Groups, Network ACLs, Firewalls, Load Balancers
Storage & CDN: Amazon S3, CloudFront
Languages: Python, Java, Ruby, JavaScript, SQL
Version Control & Tools: Git, GitHub, GitLab, VS Code

Education

MSc Cloud Computing — Jan 2024 – Jul 2025
University Of Leicester | Leicester, UK

B.E in Computer Science & Engineering — Aug 2019 – Jun 2023
Savitribai Phule Pune University | Pune, India

Higher Secondary — Apr 2018 – May 2019
St John's, Marhauli | Varanasi, India

Personal Projects

Infrastructure Automation & Cloud Projects | vanshajsrivastava.vercel.app
July 2025 - Aug 2025

- Automated AWS infrastructure provisioning using Terraform and CI/CD pipelines, cutting setup time by 50%.
- Deployed containerized applications on Kubernetes with auto-scaling and monitoring.
- Implemented CloudWatch alarms with SNS notifications for proactive incident response.
- Automated system maintenance tasks include updates, log cleanup, and S3 backups using Bash scripting.

Wikiread – Cloud Platform Engineering Project | vanshajsrivastava.vercel.app
Jan 2026 – Feb 2026

- Provisioned AWS infrastructure (VPC, EKS, RDS, ECR, Secrets Manager) with Terraform, S3 backend, and DynamoDB locking.
- Built automated CI/CD pipelines with CodePipeline, CodeBuild, and SNS approval workflows.
- Implemented GitOps deployment on EKS using ArgoCD and Argo Rollouts for blue/green releases and rollback.
- Configured CloudWatch metrics, logs, HPA, and secure access via IAM and Session Manager for reliable operations.
